

PEAK MINI COMPARATER 7X

The Peak Mini Comparater 7X is a handy and accurate optical measuring instrument composed of a combination of lens and scale, similar to our highly reputed Peak Scale Lupes 7X and 10X. Compared with conventional magnifiers, the Mini Comparater 7X is smaller, more convenient for carrying and reasonably priced.

The doublet type achromatic lens possesses a sharp and clear resolving power. Its focusing function is very smooth with the employment of a multiple-thread type screw. The photogaved scale for Scale Lupe 7X, can also be used and 13 kinds are available with different lengths, angles, and circular arcs for all measuring purposes.

Magnification: 7×
Field of view: 25 mm
Size: 29φ×46 mm
Net weight: 28 gm.
